Dear Mr. Fannon:

Jeff Harris of the Ivy Network has been asking me for affidavits for the Catch-22 buy you placed with us. After a thorough search and examination of our logs, it appears that we never ran these spots.

The reason lies in the fact that we were just starting up for broadcasting after the summer and were in a state of confusion during September and October. The order must have been lost or misplaced. As a matter of fact, I just assumed the position of treasurer last month when we changed executive boards.

I gave a copy of this letter to Jeff Harris, and would appreciate it if you would adjust the Ivy Network's account to eliminate this buy. In the future I will be careful to prevent a recurrence of this mistake.

Sincerely,

Mark J. Hoffman
